BALTIMORE & OHIO RALLEGAD!

THIS GREAT WORK OF INTER-HIS GREAT WORK OF INTERnal improvement (379 miles from Wheeling to
Baltimore, and 468 to Washington,) was opened to the
Ohio river in January, 1835, and has now been fully
ested and approved, both as a freight and passenger
route. This road is located in a romantic country, is
solidly constructed, fully equipped, and carefully
mananged, and is thus rendered an attractive as well as
a safe line for travelers. The late completion of the
Central Ohio Road, from Columbus to the Ohio river,
near Wheeling, adds greatly to the importance of this
route, offering, as it does, the most thorough Railroad
connection with the entire West.

where running for their lives, and shuddering with been. apprehension, even in their own homes! The people of Louisville saw the deeds of Monday everywhere. Who made the voting places and streets resound with party shouts? Who paraded our public thoroughfares with arrogant triumph, ourting a contest by their insolence? Did any one see foreigners at that, or Democrats? Did they ride in gangs along the streets, in vaunting and insulting triumph? Nothing of the sort was seen one side-the whole city witnessed it on the other. Never did a party carry the day with such an overbearing arrogance. Yet, in the face of all this, we have the impadent lie thrust in the faces of the people of Louisville, that foreigners pro-

foreigners, even accidentally? Where are the houses sacked by foreigners? Where are the rows of buildings that they burned, whilst they stood round as howling savages, exulting in the slaughter and combustion of their helpless inmates? Let us hear no more of these stale God-and-man-defying lies.

It is notorious in Louisville that foreigners were ing party. otection from the Mayor against repeated lawattacks upon his property. They were a feeless attacks upon his property. They were a feeble and unorganized minority, subjected to jeers, taunts, and insults daily, long before the bloody 6th of August; and yet we are told that they provoked an arimed mob, not only of the law-less rabble of Louisville, but of their oath-bound confreres from other States. Never did men under such circumstances provoke attacks. The charge is a falsehood. There is not a man in this city who believes it. All men of sense will very just-ly conclude that the miscreants who did such deeds as were done here, and which nobody denies, needed no provocation. The brutal and bloody needed no provocation. The brutal and bloody plead provocation. Fiends that stand around a conflagration that is consuming men, women, and children, with howls af exultation, need not come before the world with their pleas of provocation. What provocation do they want, but to smell the blood of an innocent victim?

If the editor of the Journal could prove all that he has attempted, it hardly touches the case. It does not extenuate the guilt charged and not de-

The damning and shocking character of the crimes committed on the 6th of August are almost thrown in the shade by the impudent and persevering attempts to justify them by as contemptible pretexts as ever were offered to screen a culprit from justice; and even these pretexts are as false as hell. The poor victims of these outrages were not only deprived of lite in the midst of horrors.

was trifling to that April; April was surpassed by the two days which preceded the capture of the Mamelon; but all will sink into insignificance pam, taking effect in one of the rag rooms, by the againg of the rags. About 150,000 pounds of the besieged city. The weight and range of the guns, the number and size of the mortars, the new positions of the batteries won by the steady progress that has marked the Summer, will try the endurance of the Russians to the utmost. The great scale on which such a bombardment is car-ried on, and the preparations necessary for its exe-cution render the delay which precede it a matter of little surprise.
In April, the Allies threw against Sevastopol

in nine days, 550,000 shot and shell; the cost of the British ammunition alone was £300,000 sterling! Yet April is now looked back upon as a time when we undervalued the enemy, and did not know what Sevastopol was. Even on ordinary days the Russians often throw 4000 shot in the 24 hours, and 600 shells, into only one portion of the British position. Whatever the resources of the garrison and the strength of the works at which they labor night and day, there can be no doubt that the approaching struggle will determine the fate of Sevastopol for the winter at least. No one can pretend to foretell the issue; all that is spoken of with certainty is that the line-of-battle ships in the har-bor will be destroyed or at least driven from their position, so as to be made powerless against the

The besieging tienerals have set all on the hazard of a doubtful strugcle, at a single point, and we must wait the result. The Russians, meantime, are actively engaged in oridging the harbor, to remove the defense to the

orth side, should the south be taken.

The evils of a divided command are more and norefelt. The line from Baidar to Inkermann, a distance of twelve miles, is occupied by French Sardinians and Turks, with part of the English eavalry—each nationality under its own command and totally independent of all the others. Repor speaks vagugly of a plan to unite the commands of all the troops on the Tchernaya in one band.

As six weeks, or at most two months, are the utost limit that can be assured for active military perations, attention is turned to the means of sup-living the armies during the coming winter. Mr. lying the armies during the coming winter. Mr. Seatty, civil engineer, has received orders to contruct two new lines of railway—one from Col de Salaklava to Kamiesh, to be worked by horsepower, and the other from Kadikoi to Woronzon power, and the other from Radikot to Woronzog road, (near the Sardinian position over Chergeun) to be worked by locomotive. The labor of erect-ing these roads will be supplied by the French and Sardinians. Mr. Beatty believes that the original railway will last during the winter, and two nundred men of the army-works corps are now en-gaged in repairing it. Stores and sheds are being erected as rapidly as possible, and other prepara-

ions for winter are going on with energy.

Me? Light on the Subject.

A BLUE ALL WHITE Double Quick Work Sky Light just introduced by ROESBERG, enables him to take Daguerreotypes in a few seconds and for the greatly re duced price of 50 cents and upwards. It is also one o the best lights ever known to produce correct likenesses, either of children or adults. The red hair and blue eyes have heretofore been difficult to take; but it is no longer any trouble to give them the real artistic disposition of light and shade. The new Sky Light operates as well in cloudy as in clear weather, and gives the likeness the true tone of life. The public will therefore look to their own interest by calling on Roesberg before going to any other gallery, as there you can buy cheaper, receive a place in the city. Just received, a splendid lot of handsome cases, such

THE MARRIED WOMAN'S Private Medical Companion,

BY DR. A. M. MAURICEAU. PROPESSOR OF DISEASES OF WOMEN.
One Hundreth Edition (500,000) 18mo., pp. 250. A standard work of established reputation, found classed in the catalogues of the great Trade Sales of New York, Philadelphia, and other cities, and sold by the principal booksellers in the United States.

Every woman can here discover, by comparing he own symptoms with those described, the nature, characteristics of the comparing here. ter, and cause of her complaint, and be spared muc anxiety and suffering, as well as the unpleasantness o making known te, or making inquiry of, a physician in respect to the numberless ailments to which she is subject. The wife about becoming a mother has often need of instruction and advice in respect to her situa tion, which she will here find. This book tells her wha is the matter, and tells her what to do for it, in simple

but chaste words, and such as she can understand. Those suffering from obstructions or irregularities pe uliar to the female system, or from prolapsus uteri (fall its pages the means of prevention, amelioration, and

Much distress of mind, as well as thousands pecun arily, might be saved to every husband, if the simples laws appertaining to the marriage state were better un derstood. That they are better understood is traceable to that natural and almost commendable sensitiveness that will rather suffer than consult or converse with even a medical man in respect to complaints peculiar to the female only.

In a copy of "The Married Woman's Private Medical

Companion," every female has a physician that knows and describes her every symptom, feeling, and ailment and which she can consult at all times without violence JExtract of a letter from a gentleman in Dayton, Ohio.]

Dr. A. M. Mauriceau—My Dear Sir: My vife habeen perceptibly sinking for some three years or more in consequence of great anguish and suffering some months before and during confinement; every successive one more and more debilitated and prostrated her, putting her life in imminent danger, and which was on the last occasion despaired. ceipt and perusual aannot express to you the relief it aflorded my distressed mind, and the joy its pages imparted to my wife, on learning that the great discovery of M. M. Desomeaux provided a remedy. It opened a prospect to me which I little conceived was possible. as early as 2 P. M., with a fine load of freight and a big trip of passengers. She was detained by fog, or would have been in time for the Cincinnati boat. We clip the following items from the St. Louis In

telligencer of the 21st inst.:

The Gentreel Thing.—Dinner on the A. B. Chambers.—Agreeably to invitation, a large number of gentlemen—merchants, steamboatmen, members of the press, and others, assembled on the new steamer A. B. Chambers, yesterday, and were treated to a sumptuous repast. After the cloth was removed, wine, toasts, and specense were the order of the day, and in many a flowing bumper were piedged the success of the new boat and the welfare of her worthy owners and officers. The occasion was one of mutual pleasure and gratification to Captains Gormley and Jameson and their guests, and the company dispersed in the evening well pleased with the new boat, and heartify wishing her unbounded success. We regret that we were not present ourself, "circumstances" victimising us in a similar manner with Gen. Cass on a recent memorable occasion. But we are happy to record, for the credit of the enterprising and literal officers of the A. B. Chambers, that they have shown a proper sense of the genteed thing—which sense, we beg pardon for remarking, has been rather blunt among some of our steamboatmen of late in similar circumstances. Captain Gormley has commenced right, and he will meet with less than he deserves, if the Chambers is not a very popular and successful boat.

The viver commenced falling on Wednesday evening.

JNO. P. SMITH,

MR. SOLOMONS: Dear Sir: Having been deprived of the pleasure of reading or writing for the last two years, and not having been enabled to procure any spectacles with which I could see any better than without, and which also immediately produced pain and uneasiness, I was induced, by your advertisement, to call at your office and purchased a pair of your improved spectacles, with which I can see to read the finest print with perfect ease and comfort; I can also see with the same ease to go about my regular business.

JESSE HOLLIDAY.

BRANDENBURG, KY.

No amount would induce her to part with those she pur chased from you. Yours, respectfully, LEXINGTON KY, March 25, 1855. P. S.—With the pair I bought of you for my own use I can see as well as when a boy.

NEW CERTIFICATES.

R. SOLOMONS; SIR: THE
benefit I have derived from the Spectacles obtained from you, induces me to express the pleasure I
have received from them. They suit my sight to admiration, by candlelight as well as day; I read w. th the
same case as when a boy, which I could not do with any
other glasses I have used. Yours, truly.

CAPT. JOHN SHALLCEOSS.

LOUISVILLE, Dec. 23, 1854.

LOUISVILLE, Jan. 15, 1855.

MR. SOLOMONS: Being compelled to wear Spectacles
I have never been able toget a pair but what made my
eyes ache—I have tried a great many glasses, but alway
failed, until I obtained a pair from you. I can see by
day or candlelight for any length of time, with the
greatest case and comfort. Mrs. Wells is very much
pleased with her glasses.
I remain yours, truly,
No. 684 Jefferson street, nextdoorto Preston. MR. SOLOMONS: Sir—When you first arrived in this city, I called with Mrs. Beattie at your office, and purchased four pairs of your Patent Spectacles. We found them superior to any we had ever used before. They realized more than we could have expected. We can now see as comfortably as when a girl and boy.

I remain yours, respectfully,

J. A. BEATTIE, Fourth street.

Brigham Young, they shook the dust of the heather eneity from their feet, as they followed their martial lords to the land of Gold.

As was to be expected, Brigham, the great high priest of the Mormons, keeps up a fierce "fire in their rear," and their retreating footsteps burn with his curses and imprecations. In two longwinded documents, which have just reached us from the Morman city, this insolent blasphemer rages against the invaders of his peace, and the happy quiet of Utah, and warns all U. S. troops, all emissaries of the "outside barbarians" who are prowling like hungry wolves around the seraglios of the elders, to beware. He will not suffer his women to be enticed away by these agents of the Prince of Darkness. "The "sorrows of Werter" were tame compared with the lugubrious jeremiads which Brigham pours out against his fiathless spouses, and the gay knaves who have deluded them to run away, and leave forever, to the eternic. This medicine before the public. In lacing this medicine before the public we do it with that confidence which is obtained only by long experience. This preparation more than one dose), the permanency of the cure, and the simplicity of the company women were inveigled into the toils of the "Latter-day"—devils! But recent developments show that they are sadly disaffected. Magazines, newspapers, and books have lately contained startling exposures, by several of the victims themselves, of the iniquities and mental torments suffered by the females who have been beguiled into the clutches of Mormonism. How could it be supposed that, under such a system, they would be better off than the inmates of a Moslem harem, or the slavish creatures who minister to the passions of any Oriental nabob?

But the Mormon women have the advantage over their eastern archetyness: like the southern

But the Mormon women have the advantage over their eastern archetypes; like the southern slaves they can run away, and leave their torment slaves they can run away, and leave their torment ors to seek for other victims. We are not surprised, therefore, that they desert in hundreds. We do not blame Col. Steptoe's command for taking pity on them, and offering them the "soldier's welcome." we do not blame Col. Steptoe's command for taking pity on them, and offering them the "soldier's welcome." That their condition was commisserated by the troops, may be readily gathered from the following letter, written by one of their officers to the Providence Journal. We quote:

"With a word about their melanaholy condition I will bring a long letter to a close. As a general thing, a woman here, having satisfied what we call the 'lust,' but what the Mormons call the 'holy desires, of some righteous eider, is left to shift of herself; not the least support does she receive from him to whom she has been in many cases forced to prostitute herself. Their condition is infinitely worse than that of the slaves at the South. One of the wires of 'the chief of the twelve Apostles, washes for a boarding house to support herself. Two wives of Parley P. Pratt, another apostle, have repeatedly begged for work. Women here have told me that their pretended husbands had not visited them for months and years. One of the apostlessaked a family of three girls to marry him, and to get them he would take the old mother. They refused, and he has since maligned them in every way. We received many requests for assistance to leave from women in every position. Their case is peculiarly hard; separated by hundreds of miles of plain and desert from the outside world, brought here by false inducement, degraded and oppressed, with no hope of succor—they are in great, very great numbers, entirely disaffected. They abhor the very thought of polygamy, the very name of Mormonism. This is the honest, simple truth."

This is simly one of many pictures of the condition of the miserable victims of Mormonism, which daily reach us. Who will not rejoice at the "noble conduct" of Col. Steptoe's command. AYER'S PILLS,

A NEW AND SINGULARLY SUCcessful remedy for the cure of all Billious diseases

NEW AND SINGULARLY SUC
cessful remedy for the cure of all Bilious diseases
—Costiveness, Indigestion, Jaundice, Propsy, Rheumatism, Fevers, Gout, Humors, Nervousness, Irritability,
Inflammations, Headache, Pains in the Breast, Side,
Back, and Limbs, Female Complaints, &c., &c. ac. In
deed, very few are the diseases in which a purgative
medicine is not more or less required, and much sick,
ness and suffering might be prevented if a harmless but
effectual Cathartic were more freely used. No person
can feel well while a costive habit of body prevalls; besides, it soon generates serious and often fatal diseases,
which might have been avoided by the timely and judicious use of a good purgative. This is alike true of
coids, feverish symptoms, and bilious derangements.
They all tend to become or produce the deep seated and
formidable distempers which load the hearses all over
the land. Hence, a reliable family physic is of the first
importance to the public health, and this Pill has been
perfected with consummate skill to meet that demand.
An extensive trial of its virtues by physicians, professors, and patients, has shown resulfs surpassing anything hitherto known of any medicine. Curres have
been effected beyond belief, were they not substantiated by persons of such exaited position and character as to forbid the suspicion of untruth.

Among the many eminent gentiemen who have testitified in lavor of these Fills we may mention:

Did space permit, we could give many hundred cericates from all parts where the Pills have been used, tevidence even more convincing than the experience eminent public men is found in their effects upon of eminent public men is found in their effects upon trial.

These Pills, the result of long investigation and study, are offered to the public as the best and most complete which the present state of medical science can afford. They are compounded not of the drugs themselves, but of the medicinal virtues only of vegetable remedies, extracted by chemical process in a state of purity, and combined together in such a manner as to insure the best results. This system of composition for medicines has been found, in the Cherry Pectoral and Pills both, to produce a more efficient remedy than had hitherto been obtained by any process. The reason is perfectly obvious. While by the old mode of composition every medicines burdened with more or less of acrimonious and injurious qualities, by this each individual virtue only that is desired for the curative effect is present All the inert and obnoxious qualities of each substance employed are left behind, the curative virtues only being retained. Hence, it isself-evident the effects should prove, as they have proved, more purely remedial, and the Pills a surer, more powerful antidote to disease than any other medicine known to the world.

SCHOOLS. Montrose Law College.

(OVER FRANKFORT). THE WINTER SESSION OF THIS establishment will be commenced on the first Mon-lay in October—its duration will be five months—but tudents will be admitted at any time before, and in-tructed and heard in recitations of regular lessons pre-paratory and in advance of their regular course. THOS. B. MONROE, LL. D., Professor of Jurispru-THOS. B. MONROE, LL. D., Professor of Jurisprudence.

I. The Preparatory and Auxiliary Sciences and Literature of the Law—Rhetoric and Logic, including especially Terminology, Definition, Abstraction, Generalization, Division, and Argumentation, and the Ethics, which, having been the basis, supplies the deficiencies in the fullness and exactness of the positive provisions of every law—constituting together this separate department, but discussed in the study, to a greater or less extent, of every branch of jurisprudence.

II. History—studied briefly in its own department, but continually in connection with the Civil Law, the Common Law of England and America, the Organic and International Law, and with the arbitrary portions of every other head of jurisprudence in the diagram.

III. The Organic Law of Government. It is proper to mention that this high head of Law is not passed over here in the ordinary mode. It is discussed and studied, not only abstractedly, on the self-evident axioms and the proposition of the arbitrary Law, but in the examples of the diversified forms of Government which have been and are now existent. Its course is, however, commenced and terminated in exercises upon our own Constitutions and Statutory Organic Law, and the history of the origin, formations, revolutions, mutations, and extensions of or own Government. Everything obtained elsewhere is appropriated in this course to the illustration, analysis, and synthetic discussion of our own system.

IV. International Law. The course in this depart. to the illustration, analysis, and synthetic discussion of our own system.

IV. International Law. The course in this department must of course be commenced with the necessary or natural Law, and embrace the history of the customary and other arbitrary Law down to the present day among civilized and commercial nations. But especial attention will be paid to the public acts, treaties, and statutes of the United States, which recognize, assert, and prescribe the rights and duties of the Government and its citizens towards other nations, their citizens, and subjects.

V. The Civil or Roman Law and of the Common Law, in connection with the statutes in improvement thereof,

must be employed in obtaining the conclusion on every trial.

VII. The Practice of Law in the Courts of the United States, according to their several modes of procedure in suits at Common Law, in Equity, in causes of Exchequer, and civil cases of Admiralty Jurisdiction, and in the Courts of the States respectively in suits at Law, in Equity, and Succession Causes, according to their new codes of practice in civil cases.

VIII. The Criminal Law of the United States and of the States, with its practice in the Federal and State Courts.

the States, with its practice in the Federal and State Courts.

Every student will be taught the composition of the ordinary papers of business, the pleadings and other documents used in the practice of the several Courts, with the forms of process and of entries of judicial proceedings; and

A Moot Court will be held twice a week for the exercise of all the students in the Practice of Law, and the argument of questions of fact and Law in a mode becoming the Counselior.

It will be observed that one Professor only fills all the Professorships in this College, but all his time not required by his judicial duties is employed with his students, and each class will have the benefit of not less than three lessons every day, and the Institution is incorporated by a statute of Kenucky, with power to confer all the degrees known in either the Civil or Common Law, or which can be conferred by any college or university in America or Europe, so that every student may and shall have whatever diploma he shall have earned.

The diploma of Bachelor of Law will be awarded on

may and shall have whatever diploma he shall nave earned.

The diploma of Bachelor of Law will be awarded on the ordinary terms of other schools in the Western States, and it will entitle the student to admission to the Bar; but the object of the Professor will be to give his graduates diplomas in their heads which will secure them success in their profession.

The terms are two hundred and twenty dollars per session, for instruction, board, lodging, stationery, the use of both text books and of a library for collateral reading, and all other necessary supplies, clothing only excepted. This sum may appear large, but the number of students will be limited to ten, all accommodated in the house of the Professor in the country, not in town, and it is guaranteed that every student will receive, in the improvement of himself, the tull value of both his money and time. No student will be received who may not appear to have determined to make himself alawyer, and none will be advised to remain who may be found unable or unwilling to do the work necessary to master the profession.
